

Ticks Me Off essential oil blend

Availability: Out Of Stock
Weight: 0.00oz

Price: \$10.00

Short Description

All natural flea, tick and insect repellant made from essential oils. Please note that this comes in a one-ounce dropper bottle, and is meant to be applied directly to your skin for your personal protection.

Description

Biting pests (insects, fleas, ticks, etc.) can be more than just a significant irritant; in some cases, they can even be carriers of disease or other risk agents. Malaria, Yellow Fever, Dengue Fever, Rocky Mountain Spotted Fever, Zika Virus, West Nile Virus, and Encephalitis are all diseases carried by ticks or mosquitoes. It has been postulated that mosquitoes might be used to disseminate mRNA or other agents in mass vaccination schemes.

The best defense is to repel the pests before they land on you to bite you. Ticks Me Off repels ticks, fleas, and insets naturally, without any synthetic ingredients or hazardous chemicals.

Genetically Modified Organisms (GMO) like mosquitoes have been bred for many reasons, some of which may have nefarious purposes. Protect yourself from these pests!
